

## Research Guides: Where to Begin?

Featured on the Medical Center Library's website are guides to assist researchers in specific subject areas or on special topics.

[Research Guides](#) are available on topics such as Cancer, Dentistry, EndNote, Nursing, Public Health, Psychiatry, UpToDate, Pharmacy, Evidence-Based Medicine, and Physician Assistant Studies, among others. Research Guides are formatted for mobile use.

The UK Libraries and Medical Center Library websites are formatted for use on mobile devices.

**Medical Center Library**  
<http://libraries.uky.edu/MCL>  
University of Kentucky  
800 Rose Street  
Lexington, KY 40536-0298  
(859) 323-5300 phone  
(859) 323-1040 fax

### **New Access Policy for UK Libraries electronic resources:**

EZproxy service is required for both on-campus and off-campus access to most UK Libraries' licensed resources. Current UK students, staff, and faculty's initial access to a licensed resource will need to be made through a UK Libraries service - the Libraries website, InfoKat Discovery, Research Guides, or "View Now @ UK" button.

# Medical Center Library

## 2019-2020

## Mobile Resources

<http://libraries.uky.edu/MCL>

The Medical Center Library features subscription databases, electronic journals, and e-books for research in all health sciences disciplines. In addition, off-campus access to resources provide information and research assistance when and where you need it. Databases are viewable on any mobile device. The Library is located on the first floor of the William R. Willard Medical Education Building opposite the Dean's Office of the College of Medicine.

**New** Lexicomp Online and App.

<http://online.lexi.com/lco/action/home?siteid=8>

Lexicomp is an online clinical database that includes drug information, interactions, drug identification, calculators, drug comparisons, IV compatibility, patient education, formulary service, and toxicology information. Includes access to AHFS DI Essentials, AHFS DI, Pediatric & Neonatal Drug Information, Geriatric Drug Information, International Drug Information, Natural Products, Pharmacogenomics, Infectious Diseases, Lab & Diagnostic Procedures, and Off-label Drug Information.

**UpToDate Anywhere** app: Registration is required with UpToDate from the **unique URL** to UTD from the MCL's website, <http://libraries.uky.edu/MCL>.

The Registration form will appear for you to Register or Login. If you are off-campus, you will be prompted for LinkBlue login ID & password. Use U.K. email. UTD will send confirmation email. Go to your respective App store, download the free UpToDateAnywhere app, and login on your device with your newly created credentials. You may install the app on up to TWO mobile devices. You will be prompted to re-authenticate every 90 days For more information, please see the Research Guide <http://libguides.uky.edu/uptodate> for detailed instructions.

**BrowZine** for mobile devices allows you to browse, read and monitor content from the library's academic journals. Download the app from your respective store, select University of Kentucky, and begin to browse titles by subject to easily find journals of interest. Easily view table of contents of current or past journals. Create a personal bookshelf of favorite journals. Save articles to EndNote or other bibliographic services.

Search PubMed using your handheld device and see a list of results which link to the MCL's journals. Use the special URL:

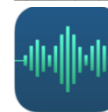

<http://bit.ly/pubmedmclib> and then save as a shortcut on the home screen. Multiple ways to search PubMed/MEDLINE in PICO format. Alternatively, visit the PubMed Mobile website which is optimized for any device. <http://www.ncbi.nlm.nih.gov/m/pubmed>.

**EBSCOhost Mobile** provides access to all of UK Libraries' EBSCOhost databases, including **SPORTDiscus, CINAHL, PsycInfo, and Dentistry & Oral Sciences Source**. Install the EBSCOhost app on iTunes or Google play. Then, go to any EBSCOhost database page and choose the link **"EBSCOhost iPhone and Android Applications"** at the bottom of the page. Submit your email address, and you will be sent an email authentication key which you will need to open within your device and renew every 90 days. Easy-to-read interface, and you can save your searches.

**Stat!Ref E-book Collection** for mobile devices. E-books include the evidence-based resource, Essential Evidence Plus, Scientific American Surgery, **2015 Red Book®**, among others. Authentication is by user name/ password or IP and stored for up to 90 days

**Other Apps of Interest**

**Canopy Speak Medical Translator App**

(Free. [iOS](#) and [Google](#))

Support provided by NIH. Free sign-up. Includes 4,000+ common medical phrases created by medical professionals, clinically organized, across 9 specialties.

**MDCalc** (Free. [iOS](#) and [Google](#))

MDCalc clinical decision support is created by board-certified physicians for use by physicians, physician assistants, nurse

practitioners, pharmacists, and medical students. It provides access to more than 270 clinical decision tools including risk scores, algorithms, equations, formulas, classifications, dosing calculators, and more.

**Electronic Preventive Services Selector**

(Free from [AHRQ.gov](http://AHRQ.gov))

designed to help primary care clinicians identify the screening, counseling, and preventive medication services that are appropriate for their patients.
