Welcome! As a University of Kentucky Voluntary Faculty member, you may now access the UK Medical Center Library’s (MCL) electronic resources. Most are only a click away from the library’s home page; by bookmarking this site on your web browser, it will always be handy when you need it.  http://libraries.uky.edu/mcl

Once your Voluntary Faculty appointment is confirmed, you will need to have two accounts set up for you in order to have proxy access to our online resources.

- First you will need an active linkblue account—this is obtained by the College that secures your appointment (or in some cases the AHEC office). The Library does not have the ability to set up linkblue accounts and cannot help with password problems, we refer you to UK Information Technology for linkblue issues: call 859-218-4357 or email 218help@uky.edu

- The second thing you need is a library system (InfoKat) account. Simply contact the library at mclib@uky.edu and let us know that you are a Voluntary Faculty member and would like to access our e-resources. We will need you to provide us with the following information please:
  - your linkblue ID
  - your UK ID 8 digit number (if known)
  - your email address
  - your mailing address

  Once your account if created, we will send an email to let you know of the progress. It generally takes 24 hours (excluding weekends) to load in the directory and sync with your linkblue account. You can then access our resources by logging in with your linkblue credentials when prompted.

For questions about Voluntary Faculty or Adjunct Faculty library accounts, please contact us at the main email address mclib@uky.edu or phone 859-323-5300. Also, please note that your library system account will expire when your Voluntary Faculty appointment expires (current appointments are on a three year cycle). Simply contact the library to let us know when you are re-appointed and we will update your account, which will restore access to e-resources.

UK Libraries provide access to thousands of electronic full-text biomedical journals and a variety of databases to search them, including PubMed, Access Medicine, CINAHL, Clinical Key, Essential Medicine Plus, Scopus, PsychINFO, Cochrane Library, and the expert opinion product, UpToDate.

Other services you may access from the MCL web page include:
- Library Guides to a variety of subject centered resources
- Online training via the Research Workshop series
- Literature Search assistance
- Interlibrary Loan

Medical Center Library
University of Kentucky
780 Rose Street
Lexington, KY 40536
Phone: 859-323-5300
Email: mclib@uky.edu

http://libraries.uky.edu/mcl
Click the “Library Catalog” tab to search for items including e-books.
Click the “Journals” tab to limit to titles including e-journals.

If you want to make sure your proxy access is working, UpToDate is a good database to test.
